*Adrian -
A belated thank you for the incredible BBQ for my
recent "away cookout." I can honestly say the guests
were awed and amazed by the quality and quantity. We're
still finding new uses for BBQ'd chicken. All best, Dan*

...ordering, you appeared on the scene
...sisted that we try your beef. You also gave
us some iced tea. As long time BBQ practitioner/
afficionados, we were glad to try everything.

We sampled the pulled pork, ribs, beef, spinach,
corn, sweet potatoes and beans as well as the
tea. It's seldom that we come to a table where we
enjoy everything in equal measure. It was all
simply delicious, save for the beef and beans,
which were over-the-top, exceptionally good!
Bravo! Kudos!

As a cooking teacher I have always felt it should
be possible to purvey good food to the public in a
simple way. You have achieved my gold star.
We loved the food, the experience and will return.

Thanks, Nancy B. Hoffman
